The Police Had Behind Cotton Bales While the Firing Was in Progress—England is Indignant.

New Orleans, March 12.—(Special.)—Two riots occurred in this city this morning.

Eight men were killed and many more were wounded.

Result of Labor Troubles.

The levee riots today resulted from an old quarrel over the loading of cotton vessels.

CIGARETTE HABITS.

The beginning of the present season, white laborers, considering that there was not enough business for them and the negroes, concluded to drive the latter from the city.

The ship agents, under orders from the police, and giving notice that he would appeal to the state and federal governments if the city authorities were unable to control the mob.

The avowed purpose of the riots today, which were arranged in every detail, was to carry terror to the hearts of the negro laborers engaged in loading vessels, and the ship agents, merchants and others who were employing and abetting them, by striking a bloody blow. The riots, however, had quite the contrary effect, which has very thoroughly been done. The moment Governor Foster reached the city and learned the situation, he gave notice that he would extend protection to all who might want to work in loading vessels, and ordered the police to be on duty at 6 o'clock a. m.

Rioters Ordered to Disperse.

Tonight Mayor Fitzpatrick issued a proclamation ordering the rioters to disperse, calling upon the citizens to assist the police, and giving notice that he would appeal to the state and federal governments if the city authorities were unable to control the mob.

AN INSULT TO BE RESENTED

The Merchantman, Alliance, Is Fired on Off Cuba.

CAPTAIN GROSSMAN KEPT RUNNING

He Was Probably Mistaken for a Friend of the Insurgents, and Chased to a Safe Distance.

New York, March 12.—The mail steamer Alliance, of the New York and Colon line, which arrived today, was fired upon by a Spanish gunboat when off the coast of Cuba on March 8th. The affair is likely to lead to international complications. The owners of the line are very indignant at the insult, and say they will demand a reason for the attempt to stop an American mail steamship on the high seas.

The following letter has been sent to Secretary Gresham:

To the Hon. Walter G. Gresham, Secretary of State—The American mail steamer Alliance, under my command, while on her homeward-bound voyage from Colon to New York, was on the morning of March 8th, off the east end of Cuba, at 6:30 o'clock a barkentine-rigged steamship was sighted under the land, bearing directly for us. At 7:15 o'clock she set her colors, proving to be a Spanish gunboat.

THAT CONFERENCE IS NOT SURE

Congress Put the President in a Hole on the Representatives from This Country.

Washington, March 12.—(Special.)—With the exodus of congress the lurid light of Washington dims and the great capital city of gay throngs, of excitement and gaiety, fades down and becomes an ordinary home city.

The statesmen have all disappeared; they have gone home to explain why they didn't do it to ask for the sympathy of their constituents. With them have gone the great throngs of wealthy men and women who come here to plunge in the social pool and sport upon the water of shallow society. With them have gone the claimants and the aspirants—some with their pockets bulging with the long green; others with empty pockets and slight hopes of better success next time. The lobbyists—the fellows who poured champagne about like water during the last days of congress in hope of seducing the representatives into incorporating their "just appropriations" in one of the last bills, who succeeded in the senate only to have their hopes shattered in conference—have gone, too, to hibernate until the next congress.

HOW A VETO WAS KEPT OFF

Legislators Seize the Governor's Secretary and Hold Him.

Indianapolis, March 12.—The Indiana legislature today seized the governor's secretary and held him as a prisoner in one of the state buildings.

The governor is allowed by the constitution to hold a bill three working days before vetoing or approving it, and one of the political bills, ousting the custodian of the statehouse, reached him at 11:34 o'clock last Thursday night.

It became known about that he would send in his veto at 11:34 o'clock last night, hoping that, inasmuch as the session expired at midnight, there would be no time to pass the bill.

Officers of the house were prepared to rush out call through in quick order, and get the bill over to the senate in time to pass it.

The governor's secretary usually before they got the door of the house, and he was excited there last night.

A few republican members had put up a scheme to keep him out until after 12 o'clock, so that the veto would be ineffective.

The doors were locked and the elevator stopped. The private secretary King, using the elevator with the veto message he was seized by Mr. Adams, of Parke, a giant member of the house, and held as a vice, while Mr. J. G. Allen, another member, ran the elevator up and down at lightning speed.

King's yellow soon brought the custodian of the building with his force, and the elevator was stopped and King released.

There was a half-minute, and the central door was broken in by the custodian's force.

Then came a rush that resembled a riot. The democrats tried to fight through a way for King to the speaker's chair, but the speaker's chair showed 12 o'clock long before they got there, and he decided the house adjourned.

Two or three chairs were smashed in the rush, but nobody was hurt.
